# SPEED-LIFE 3 – The dynamic

Your reliable everyday companion for summer.

## Precise handling on dry roads

High pattern rigidity ensures precise steering behaviour and increased driving stability, particularly when cornering.

## Reduced wear for increased mileage

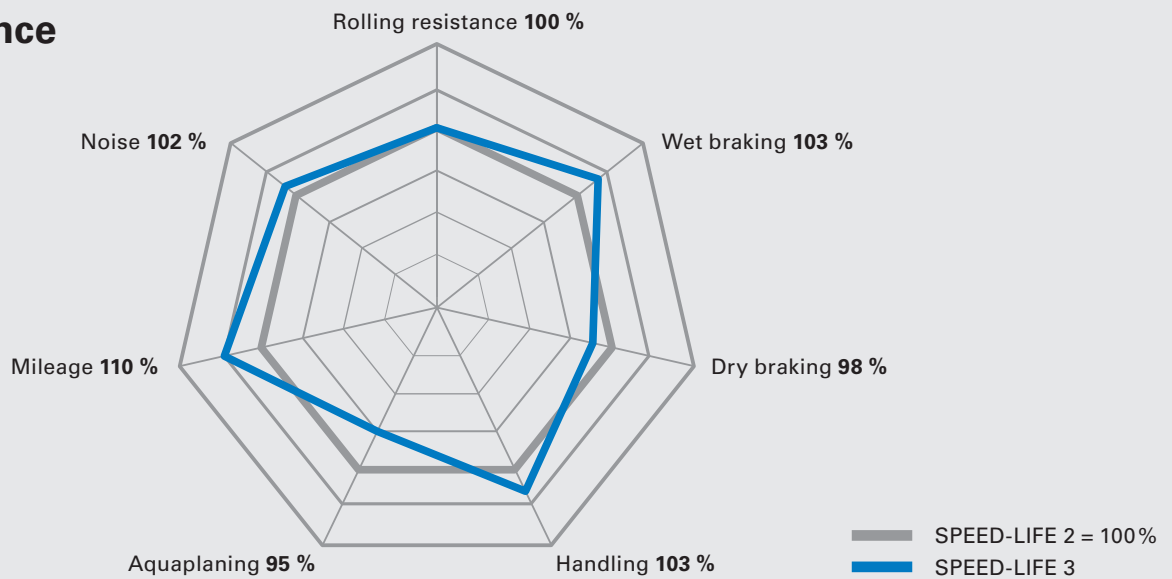

Refined pattern rib structure provides well-balanced pressure distribution over the contact area, less rolling friction and increased mileage.

## Improved driving characteristics on wet surfaces for greater safety

Optimised pattern geometry with wide centre grooves and extra gripping edges ensures better water dispersion, more grip and thereby more control when steering and braking in wet conditions.
